

TOASTMASTERS SPEECHCRAFT

Raise their speaking skills, raise their success.

Give them the practice they need in a fun and relaxed hands-on workshop.

More than ever, today's workforce needs the essential skills that come with being good communicators. But great speakers aren't born that way, they practice their way to extraordinary. The Speechcraft digital experience was created to help your staff hone the speaking skills they need to:

Present confidently

**Relay your company's
story effectively**

**Sell your product(s)
with impact**

In four to eight sessions that may run online or in person, Speechcraft is a condensed version of what Toastmasters members experience in regularly scheduled club meetings. Speechcraft content is accessed online and designed to raise the communication bar, often in all aspects of a participant's life.

Contact us today to learn more about how you can give your employees the gift of the Speechcraft experience!
