Thanks to all of you for participating in the credentialing process. District officers are being elected in the new District 212 business meeting on May 16, not here today. But we do have other business to conduct at this meeting, so this process still ensures that we have a quorum for that. With that, here comes the math.

There are 62 clubs in good standing in District 35 today. Since each club receives two votes to allow their presidents and VPs of education to vote here, that means there are 124 club officer votes available. We need at least 1/3 of them present to have a quorum, and that's a minimum of 42 club officer votes.

In the credentialing process, 60 club officer votes committed to be here, so we do have a quorum. We also received commitments from 13 district officers who do not count toward quorum, so that means a total of 73 votes available.

Should vote counting be necessary, a majority will be 37 votes and a 2/3 vote will be 49 votes.

Again, thank you all for being here, expressing your views, and helping complete the story of this storied Toastmasters district.

Respectfully submitted on April 25, 2026:

Jim Vitrano

District 35 Credentials Chair
