Wisconsin Rapids, WI 54494

Toastmasters International is the leading non-profit organization that teaches speaking and leadership skills throughout the world today. We've assisted individuals in government agencies, tech start-ups, and dozens of the top Fortune 100 companies around the globe.

We are extending a special invitation for your company to become our next successful chapter by opening an on-site club for your employees.

While becoming a better communicator is normally associated with public speaking, it actually affects almost every aspect of business. Here are just a few of the benefits that are commonly gained from a Toastmasters chapter:

- Increased sales/conversion
- Superior customer service
- Increased office productivity
- Higher workforce morale
- Better inner-office communications
- Higher customer satisfaction rates
- Leadership development
- Improved teamwork

Please visit <http://www.toastmasters.org/corpsponsors> to learn more about starting a Toastmasters club in your company.
